Html,Css,Bootstrap,Js,
React.js

Backend Development

Php,Firebase

Database

MySQL, Firebase

Experience

WEB DEVELOPMENT, INVICTUS SOLUTIONS

Faisalabad, 2022

A course offered by Invictus Solutions Faisalabad. I have been part of that course. Its duration was about 6 months. Their module was about full stack development. For the purpose of designing HTML 5 CSS 3 and Bootstrap 5.2.0 was used. For functionality javascript and Typescript were used. For backend I learnt PHP and as DBMS we used phpmyadmin with MySQL as database.

Accomplishments

- Designing
- Dynamic Web Pages
- PSD to HTML/CSS
- Database Connectivity

Ebay Dropshipping

Online, 2022

I managed Ebay stores of overseas clients. Worked for a well known organization to serve to clients. Searching/Hunting listing the products and then marketing the products was my job.

Accomplishments

- Product Hunter
- Virtual Assistant
- Account reinstain
